This scenic 9-hole disc golf course takes you on a peaceful tour of the woodlands of Skare Park Homestead.

Begin play by throwing your disc toward an elevated target (often called a Pole Hole.)

As you progress through the hole, throw each consecutive spot from the spot where your previous throw landed.

Trees, shrubs, and terrain changes provide challenging obstacles. At the finish of the hole, the 'putt' lands in the elevated target and the hole is complete.

Have fun!
